

HADISA FATIMA SYED

Full-Stack Web Developer | React.js | ASP.NET Core | AI Integration

hadisaasyed@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Final-year Software Engineering student and Full-Stack Web Developer with hands-on experience building responsive React.js interfaces, RESTful APIs, and database-driven applications. Experienced with React.js, JavaScript, Tailwind CSS, ASP.NET Core, C#, PHP, MySQL, Entity Framework Core, and Git/GitHub, with additional experience integrating AI-powered features and APIs into software applications. Strong foundation in API integration, authentication, CRUD operations, database design, responsive UI development, and collaborative software development. Seeking a junior web or full-stack development opportunity where I can contribute to modern software products and continue growing across web and AI technologies.

TECHNICAL SKILLS

Languages: C#, JavaScript, Python, SQL, HTML5, CSS3

Frontend: React.js, Vite, Tailwind CSS, Bootstrap, SASS, Responsive Design, Component-Based UI

Backend: ASP.NET Core, ASP.NET Core Web API, PHP, REST APIs, Controllers, Services, Routing, Dependency Injection, Middleware

.NET: Entity Framework Core, LINQ, CRUD Operations, DbContext, Migrations, Entity Relationships, Swagger/OpenAPI

Databases: MySQL, SQLite, MongoDB

AI & Automation: Generative AI APIs, AI Chatbots, RAG, AI Model Integration, n8n

Tools: Git, GitHub, Visual Studio, VS Code, .NET CLI, Swagger

EXPERIENCE

Technical Associate

Jun 2026 – Jul 2026

AsanCars

- Developed RESTful APIs for user authentication and ride management using PHP and MySQL.
- Designed and managed MySQL database schemas supporting application features and backend workflows.
- Implemented authentication, data validation, and backend business logic for API functionality.
- Integrated backend APIs with frontend applications and handled API data flows.
- Tested and debugged API endpoints using Postman and Terminal.

Web Developer Intern

Aug 2025 – Oct 2025

Webperts Digital Agency

- Developed responsive web interfaces using React.js, Tailwind CSS, Bootstrap, and SASS.
- Contributed to **CSSAWWWARDS**, a full-stack website showcase platform featuring authentication, website submissions, and voting.
- Built reusable React components and responsive UI features following component-based development practices.
- Collaborated within a three-member development team and worked alongside backend developers.
- Used Git-based workflows for feature development, debugging, code collaboration, and responsive UI improvements.

Summer Intern

Jun 2024 – Oct 2024

NovaGenius

- Developed interactive web components and sliders using JavaScript.
- Built responsive interfaces using Bootstrap and SASS.
- Improved maintainability through organized and reusable CSS architecture.

SELECTED PROJECTS

CSSAWWWARDS

React.js | Tailwind CSS | Vite | Git/GitHub

- Developed a full-stack website showcase platform with authentication, website submissions, and voting functionality.
- Built responsive React interfaces using reusable components and modern frontend development practices.
- Collaborated within a three-member development team using Git-based workflows.

Course & Student Management API

ASP.NET Core / C# / EF Core / SQLite

- Built a multi-entity ASP.NET Core Web API for managing Students, Courses, Departments, and Enrollments.
- Implemented Entity Framework Core with DbContext, migrations, database updates, and entity relationships.
- Applied separation of concerns using Models, Controllers, Services, Interfaces, and Data layers.
- Developed CRUD operations through RESTful API endpoints.

UlcerVista AI

Flutter / FastAPI / AI Models / Firebase / Generative AI

- Developed an AI-powered application integrating trained machine learning models with a Flutter application through FastAPI services.
- Integrated AI-powered assessment and chatbot functionality to support intelligent user interactions.
- Worked with cloud-based services and API-driven architecture for application data and AI functionality.

Student Management REST API

ASP.NET Core / C# / Swagger/OpenAPI

- Converted a console-based Student Management System into an ASP.NET Core Web API.
- Developed REST endpoints for creating, reading, updating, and deleting student records.
- Applied controllers, routing, dependency injection, services, and basic ASP.NET Core architecture.
- Used Swagger/OpenAPI to test and interact with API endpoints.

Portfolio Website

React.js / Tailwind CSS / Vite

- Designed and developed a responsive personal developer portfolio using reusable React components.
- Implemented smooth navigation and responsive layouts with a focus on frontend usability and performance.

EDUCATION

Bachelor of Engineering (B.E.) – Software Engineering

Mehran University of Engineering & Technology (MUEET), Jamshoro

Expected Nov 2026

Dec 2022 – Present

CORE STRENGTHS

- REST API development and frontend API integration
- Responsive and component-based UI development
- Database design, CRUD operations, and data validation
- AI-powered application and API integration
- Problem-solving, debugging, and analytical thinking
- Team collaboration and Git-based development workflows
